			Your personalized label is printing and will be ready soon. Whether its far you, a filered, or leved one, you've just onested a traily one of
			ready seen. Whether it's far you, a friend, or

PART 3: PRINTING & APPLYING

1. The customized message will pop up in your browser – the page is synced with each brand label and will print in the correct spot 2. Load the label face side up, on the right side of the printer drawer (exactly as pictured below). Ensure the alignment bar slides to the left of the label

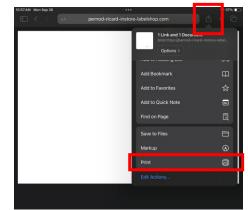

3. On the iPad, click on export button and select "Print"

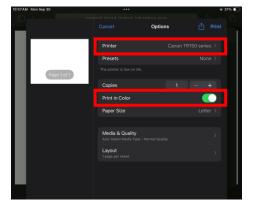

4. Make sure printer is connected, click print in color and then click "Print" in top right corner

5. Your customized message will print on the label

6. Gently peel the label starting at the top left corner

7. Apply the label to the bottle, starting at the top left corner, slowly lower the label to ensure no bubbles

8. Gift your personalized bottle to a friend or loved one and enjoy!

Tip: if you encounter text alignment issues, go to printer Settings \rightarrow Maintenance \rightarrow Print Head Alignment \rightarrow Start Print Head Alignment, using a piece of paper

If you experience any issues or have questions, please contact the HALO Support Team at pernodstorelabels@halo.com
